So many communications fall flat because they are missing a critical element.

Beautiful decks are assembled. The graphics are clear, and the copy is just right. Everything seems perfect for the audience to understand and take action.

But then in the moment it **fails to meet expectations**. The audience is not convinced, or perhaps disinterested. Why? Often, the communication is missing the one tool that will unlock the audience’s interest and connection to the message... **STORIES**.

Without stories, presentations and conversations are much less believable, relatable and less memorable. Three crucial ingredients for success.

Mandel’s **INFLUENCE WITH STORIES™** classroom workshop addresses these challenges by equipping participants with vital storytelling skills:

1. **UNDERSTAND** why stories matter
2. **IDENTIFY** a critical message missing its story
3. **DECIDE** what story to tell and when
4. **CRAFT** a relevant and memorable story
5. **PRACTICE** telling their story

World class training with proven results.

Harness the power of storytelling to drive immediate, measurable business results:

- Deeply connect the message to the audience
- Add enormous credibility
- Engage the audience with a story they will remember and repeat
- Create a lasting image of the value proposition
